Clinical details:
Relevant medications:

Iron Deficiency is a health issue affecting people of different age groups: Iron may be given as an intravenous infusion to help rectify this deficiency.

The Infusion Services at Melbourne Private Hospital offer direct referral for Iron Infusions, for patients with and without Private Health Insurance.

Refreshments will be provided. You may eat and drink normally prior to your appointment.

**If you would like more information on this treatment or have any concerns please contact the Unit Manager: 03 8341 3430.**
